

ZUSDURI Shipment and Storage Guide

The components of your order

Now that you've ordered ZUSDURI, you will receive 2 separate shipments:

- **ZUSDURI admixture vial(s):** 1 vial per patient
- **Intravesical administration kit (IVAK) carton(s):** 1 IVAK carton per patient

If you ordered for multiple patients, you will receive multiple vials and IVAK cartons (up to 4 units per shipment).

Upon receipt:

- 1 Unpack** each shipment immediately
- 2 Verify** the contents match your order
- 3 Check** the temperature monitor, if included (*see side 2 for details*)
- 4 Store** items as specified in the Prescribing Information and as summarized below

ZUSDURI Admixture Vials

Storage information¹

Place the ZUSDURI admixture vial(s) **in the refrigerator** for up to 7 days at 2°C to 8°C (36°F to 46°F) after removing from the shipping package. Vial(s) can be refrigerated through the expiration date found on the admixture label.

If not used immediately, store reconstituted ZUSDURI **in the refrigerator** at 2°C to 8°C (36°F to 46°F) for up to 7 days, or for up to 6 days followed by **no more than 24 hours** at room temperature (20°C to 25°C [68°F to 77°F]). Refer to the expiration period found on the admixture label. Avoid excessive heat over 40°C (104°F). Protect from light.

Not actual size.

ZUSDURI is a hazardous drug. Procedures for proper handling and disposal of hazardous drugs should be followed. The Safety Data Sheet (SDS) for ZUSDURI is available from UroGen® upon request.

If any component of your ZUSDURI order is missing or damaged, please reach out to UroGen Support™ at **1-833-UROGEN1 (1-833-876-4361)**.

Please see side 2 for information on ancillary supplies included in the order.

Also included as part of your ZUSDURI order
